

The committees supporting the People's War in India in Galizia and Italy: Call for a new international campaign next 24th of November in support of the People's War, against genocidal campaign "Prahar 3"

Call for a new international campaign next 24th of November in support of the People's War, against genocidal campaign "Prahar 3"

The committees supporting the People's War in India in Galizia and Italy call on the international proletariat, revolutionary and democratic organizations to actively participate on November 24, 2021 in the campaign against the new genocidal operation Prahaar-3 and in support of the People's War and the CPI (Maoist).

In India a process of liberation of the oppressed classes is developing, very hopeful for the proletariat and the oppressed of the world, a revolution of new democracy through the People's War led by the Communist Party of India (Maoist) and where the popular masses exercise the popular government

through the so-called "Janatana Sarkar" (Popular Revolutionary Committees) in thousands of villages in the liberated zones in many states of India, mainly in the central and northeastern regions, with the support of the militia popular and the People's Liberation Guerrilla Army.

November 24, 2021 marks the tenth anniversary of the cowardly assassination of Comrade Kishenji. In these last ten years the party and the people's war have suffered great blows but they have also been able to defeat all the genocidal operations unleashed by the Indian governments. The terror of the genocidal operation "Green Hunt" is well known, but the revolutionary movement faced it with the appropriate political, organizational and military tactics. In addition to the resistance of the People's Liberation Guerrilla Army, popular agitation and the firmness and determination of democratic intellectuals, artists, journalists, students, workers and peasants from all over the world made it possible to stop the genocidal operation "Green Hunt".

In these moments of offensive of the fascist government of Modi with the new genocidal operation, Prahaar-3, with the intention of the total crushing of the people's war and the CPI (Maoist), as well as the fascist policies of repression against peasants, Adivasis, Dalits, intellectuals, workers, religious minorities and against the peoples of Kashmir, Assam or Manipur, it is more necessary than ever to activate all our internationalist solidarity to demonstrate to the fascist and genocidal government of Modi, that the CPI (Maoist), the people's war that leads and the masses of India are not alone.

This November 24, 2021, we launched a call to carry out actions in embassies, consulates and other institutions and interests of India in the world, depending on the national and local conditions of each country, to be a fist of unity of internationalist solidarity to strike with determination the fascist and genocidal Modi regime and its new genocidal operation Prahaar-3 and to show with raised fists our

unconditional support to the popular masses of India, to the glorious people's war and to the party that leads it , as an inseparable part of the World Proletarian Revolution.

STOP PRAHAAR-3!

DEATH TO THE FASCIST AND GENOCIDAL REGIME OF MODI!

LONG LIVE THE CPI (MAOIST)!

LONG LIVE THE PEOPLE'S WAR IN INDIA!

LONG LIVE PROLETARIAN INTERNATIONALISM!
