Proletarians of all countries, unite!

RETROSPECT 2021

The Year 2021 is behind us and a stormy 2022 is ahead. We like to take a look back on the yesteryear to create an outlook for the upcoming.

Of utmost importance, with worldwide significance and of historical dimension was the victory of Chairman Gonzalo won on the 11th of September. He gave his life in the most shining trench of combat, in the concentration camp of the naval base Callao, standing steadfast, combating fiercely since his last breath, dealing an immense blow to the counter-revolutionary plan of the Yankees, it's CIA, the Peruvian reaction and the revisionists and capitulationist right opportunist line (ROL). They murdered cold-bloodedly the greatest Marxist-Leninist-Maoist of our epoch and it is necessary to highlight the role of the government headed by the rotten rondero Castillo consisting of the shabbiest renegades, traitors, opportunist and "radicals" in the culmination of their sinister plan and three decades of torture, giving the murderers "credibility". They tried to annihilate the great leadership but they failed. Their hoaxes crumbled into dust. The communists of the world raised the red banner with hammer and sickle and the portrait of Chairman Gonzalo pledging to defend his great leadership and his all-powerfull Gonzalo-Thought.

Once more it was proven right:

"Lifting a rock only to drop it on one's own feet" is a Chinese folk saying to describe the behaviour of certain fools. The reactionaries in all countries are fools of this kind. In the final analysis, their persecution of the

revolutionary people only serves to accelerate the people's revolutions on a broader and more intense scale. Did not the persecution of the revolutionary people by the tsar of Russia and by Chiang Kai-shek perform this function in the great Russian and Chinese revolutions?"

It is not only the communists in Peru on their way of struggle for the general reorganisation of the glorious Communist Party of Peru, thereby overcoming the bend in the road of the people's war, that are arising from the victory of Chairman Gonzalo most firmly united, but also the ICM on its path forward to the Unified International Maoist Conference and the birth of the New International Organisation of the Proletariat.

The world has seen an extraordinary mobilisation. From the cities of the imperialist countries to the countryside of the oppressed nations thousands and thousands rose the battlecry **Eternal Honour and Glory to Chairman Gonzalo!** From Bangladesh to Brazil it went around the globe. Glorious moments and victories over victories for and by Chairman Gonzalo.

Another tremendous development is the peasants struggle in Brazil, led by the Poor Peasants League (LCP), especially in Rondônia and Western Amazonia. Exemplary we also highlight the great uprising of the Colombian People in April. These and others confirm that today Latin America should be considered as the weakest link in the imperialist chain.

The development of the process of constituting/reconstituting the Communist Parties as militarized Marxist-Leninist-Maoist Communist Parties and where they exist initiating the people's war, as fast as possible and in each and every country, has seen great successes. A fact we greet with fierce

revolutionary joy and pride.

The people's wars in Peru, India, Turkey and the Phillippines are the bright lighting torches that illuminate the path of the proletariat on its march towards the emancipation of mankind, our ever golden goal communism. Therefore it is appropriate to tense forces according to the spirit of communism – proletarian internationalism. Undoubtedly there are more people's wars to be initiated. This will boost the new great wave of proletarian world revolution, inside the 50 to 100 years, and will be characterizing for the new period we are developing in. Hence our unwavering faith will be materialized and Maoism will become the sole command and guidance of the proletarian world revolution.

The old order is not able to prevail. How deep the general and final crisis of imperialism is can be seen in the longlasting overproduction crisis that shook their economies, on the one hand, on the other hand the explosivness of the masses is developing, unevenly. The masses combat the foreign rule of imperialism which only offers hunger, misery and death. The victory of the Afghan people, the collapse of the occupation and the retreat of Yankee and collaborating forces is in this sense the most notable development. In the storm-centres of the proletarian world revolution, the oppressed nations in Latin America, Asia and Africa, and also expanding into Europe, the knell rang as loud as never heard before.

The other hill is trying in vain to restructure their system because they are not able to maintain as before. This is in general obviously the very core of all the bourgeois elections, e.g. in Russia and Germany, that were held last year. By Covid-19 the imperialists proceeded conducting two major crimes. One, an extensive genocide especially in the oppressed nations and among the deepest and broadest masses. Two, dismember and erase the conquered democratic rights, fundaments of their very own order, by the so-called "anti-covid-measures", in fact the attempt to slay the movement of

the class and the people's. The swamp dwellers parroted prayer wheel-like to obey to these wickednesses imposed by the evil and once again proved they rightly belong to the big heap of garbage.

They are doomed to decay, we are doomed to win. We will inevitably triumph. That corresponds to the movement of all matter. This makes us confident and arms us with revolutionary optimism. Hence, we can fit to the necessities and serve the people wholeheartedly.
