

# March of the Maoists on September 24th 2022 in Paris

On September 24th, 2022, around hundred communists held a demonstration "Defend Chairman Gonzalo and his all-powerfull thought!" in a proletarian suburb of the French capital. A fierce blow to revisionism and opportunism of all kind and a harbinger of the coming Unified Maoist Internataional Conference! Our comrades in France conquered a height we will always remember.
