## Celebrate the birthday of Chairman Gonzalo

Chairman Gonzalo is a great proletarian leader, we raise to the top his undefeated flag and we swear to follow his extraordinary example of full and complete dedication to our cause, the unceasing struggle and combat for communism.

On September 11, 2021, Chairman Gonzalo offered his life in the highest shining trench of combat of the People's War, conquering a political, military and moral victory for the Communist Party of Peru, the People's War, the international proletariat and the peoples of the world.

Chairman Gonzalo is present in the minds and hearts of all of us, in all the labors, works and struggles we develop, guided precisely by our unfading ideology, Marxism-Leninism-Maoism, which he, justly and correctly, defined as the new, third and superior stage of Marxism.

Chairman Gonzalo taught us the great truth that to be a Marxist today is to be a Maoist. Thus, it will certainly be in the minds and hearts of those who carry out the urgent and necessary task of the Unified Maoist International Conference, which will be the expression and result of Chairman Gonzalo's struggle, and will therefore be a tribute to this titan of thought and deed.

The people's war in Peru, in the midst of a difficult and complex situation, follows the path established by Chairman Gonzalo, because the heroic fighter forged in his image and

likeness, the glorious Communist Party of Peru, is still standing. The process of general reorganization now being carried out by our comrades in Peru is advancing and we are sure that it is about to take a great leap forward in this great task.

We are at your side to contribute our grain of sand for its success. We are sure that by developing the democratic revolution, with more and more people's war, the PCP will continue to fulfill its role, as it has always done, developing the Peruvian revolution in the service of the world revolution.

**Eternal glory to Chairman Gonzalo!**

**Chairman Gonzalo is not dead – he lives in us!**

**Long live the Communist Party of Peru and the people's war it leads!**
