

Chile: Commemoration of the Birth of Chairman Gonzalo

Commemoration of the Birth of Chairman Gonzalo

Eternal Glory to Chairman Gonzalo,

Long Live the Invincible People's War!

With this slogan we raise an internationalist salute to the unfading work developed by the great proletarian leader, Chairman Gonzalo, leader of the Peruvian revolution, of the PCP, continuator of the work of Marx, Lenin and Chairman Mao Tsetung, of great significance for the communists of the world for his universally valid contributions to the scientific ideology of the proletariat.

This December 3 we commemorate the birth of Chairman Gonzalo, because having given his life in the highest trench of combat, he lives on in his all-powerful Gonzalo thought, which penetrates and strengthens the minds and hearts of more and more revolutionaries all over the world.

In front of the Peruvian Embassy in Santiago de Chile, anti-imperialist revolutionaries have gathered to vow to follow his example of tireless struggle and to make it clear that the efforts of the old Peruvian state, Yankee imperialism and revisionism to annihilate Chairman Gonzalo and his thought have been unsuccessful: Chairman Gonzalo is not dead, he lives on in us.

We salute raising the red flags with deep pride in the unfading legacy of Chairman Gonzalo, who is a guide for Chilean communists on the road to take up and develop the path

of Luis Emilio Recabarren and reconstitute the Communist Party of Chile as a Marxist-Leninist-Maoist party with the universally valid contributions of Chairman Gonzalo, serving with people's war the New Great Wave of the World Proletarian Revolution.

With a commemorative banner and shouting our slogans loudly, we declared

Long live Marxism Leninism Maoism, mainly Maoism, with the universally valid contributions of Chairman Gonzalo!

Long live the people's war!
