Proletarians of all countries, unite!

A statement of the situation of the Maoists in the USA

Since February/March this year, the comrades in the United States who struggle for the reconstitution of the Communist Party in their country are facing a complicated internal situation resulting from an attempt to liquidate the Committee to Reconstitute the Communist Party of the USA (CRCPUSA) – the ongoing initiative to unify all the communist in the task of reconstituting the communist Party of the United States under Maoism. The liquidationists are launching a vicious internet campaign in which they go so far as snitching, diffusing internal information about the revolutionary organizations, and, in the most repulsive cases, publicizing names and photos of alleged leading members. This helps the reaction in striking blows against the revolutionary and communist movement. It is collaboration with and legitimization of the enemy apparatuses, and does not, in any way, help to build a communist party, nor does it constitute a method of revolutionaries and communists for developing the struggle.

Chairman Mao always insisted on the necessity to correctly draw the line between Yen-an and Sian, that is between revolution and counter-revolution. He also advocated to “clearly differentiating the errors that take place at the practical work (problems of application) from the errors of principle (problems with the conception), separating Marxism from revisionism”. The attempt to liquidate the CRCPUSA confuses Yen-an and Sian, and the mistakes on principles with those made within the practical work, and, in doing so, it

harms the effort for the reconstitution of the Communist Party in the United States.

Accusing people of being revisionist requires a serious critic of its ideological, political and organizational line. It can only be made by conducting a persistent and protracted two-line-struggle, and this is always carried out with the aim of unifying the Party and not destroying the Party. We call on all the honest comrades in the United States – which we believe constitute the overwhelming majority of those that had taken part in the process of reconstitution- who wish to serve the struggle for the reconstitution of the Communist Party of the USA to follow “Practice marxism, not revisionism; work towards unity, not for splitting; act in honest and honored way and don’t thread intrigues nor machinations”. A principled two-line-struggle through the correct internal channels must be conducted with the aim of firmly unifying on the basis of Marxism-Leninism-Maoism, the struggle against imperialism, revisionism, and the reaction, and to serve the development of revolution in the US as part of and in service of the world proletarian revolution. We call all the comrades that have criticism toward other comrades to dispose all post-modernist criteria in the struggle, to reject individualism and personal disputes. All criticism must have a political sense. We call all comrades that have committed mistakes to undergo serious and honest self-criticism and to correct the mistakes in their revolutionary practice. We call on all comrades who have been left without reliable contacts to not despair, nor open any organizational debates and information online, nor cease their work with the masses, we urge them to keep developing their revolutionary activities. With the proper development of two-line-struggle, you will be able to reconnect and participate in it through the internal channels.

Liquidating the CRCPUSA does not serve revolution and does not combat revisionism, rather it destroys the efforts to unify the communist under the task of reconstituting the communist

Party of the United States. Calls to "destroy the CRCPUSA" are only expression of liquidationism and is not the way Maoists struggle to impose the correct line. On international level, the CRCPUSA continues to be the only recognized organization that represents the struggle for the reconstitution of the Communist Party in the United States, and we urge all comrades to develop internal two-line-struggle, to apply unity-struggle-unity, and to firmly reject all snitching and police work.

The international communist movement fully supports the struggle of the comrades in the United States and will support the two-line-struggle to rectify mistakes and to achieve a higher unity in the path of unifying under Maoism; and reconstituting the communist Party of US.
